SASES Tours | Salt Lake City Utah
Saturday, November 6, 2021

SASES Tour #1: Water, Water (and Salt) Everywhere! | Departs 6:30 AM
Utah is known for its salt rich natural landmarks including the Bonneville Salt Flats and the Great Salt Lake. This tour will allow students to explore these two major landmarks & learn about their impact on the surrounding agriculture. This tour includes a 1-mile total hike which includes a 400 ft total altitude change, please dress accordingly and wear closed toe shoes.

SASES Tour #2: The Science of Utah | Departs 6:30 AM
The Science of Utah tour highlights the incredible science and research conducted in Utah surrounding agriculture and the environment. Visit soil pits, tour greenhouses, and visit the USU Robotic Dairy farm! Join us for a guided walking tour of the Natural History Museum with the chance to chat with the researchers behind the collections. Please wear closed toe shoes.

SASES Tour #3: Brrr, It’s Cold Out There … Into the Greenhouses We Go! | Departs 7:00 AM
Get ready to learn about plants and distribution on a large scale, sustainable practices to produce animal feed, and the process of taking grain and turning it into an enjoyable beverage. This tour includes a stop at a distillery for attendees over 21. If you are under 21, you will be escorted to a tour the Natural History Museum instead. Please bring state ID or Passport.

SASES Tour #4: 3C: Chocolate, Cannabis, and Cows! | Departs 6:30 AM
Spend the whole day at Utah State University and visit the university’s innovative chocolate lab and taste-test the chocolate made on site, learn about equine population control measures, visit the robotic dairy farm, and meet the great agriculturalist, Dr. Bruce Bugbee. Dr. Bugbee will tell us about his cannabis research and the booming hemp industry.
