

# 2025

Fukushima, Japan  
August 19-22

# Kirkham Conference

## Kirkham Conference Suggestions for Your Summary Slide

Your summary slide is a **visual aid** to support your brief spoken intro, not to replace your poster. It should:

- Capture attention
- Convey the **core idea and significance**
- Highlight **key findings** or **questions**
- Invite people to visit your poster for more

### Slide Structure (Keep it Simple & Clean)

1. **Size:** 16:9
  2. **Filename format:** pdf
  3. **File Name:** LastName FirstName Session 1, 2, or 3 (example: Chapman Susan Session 1.pdf)
  4. **Title (Top)**
    - Use your poster title or a slightly shorter version.
    - Include your name and affiliation (smaller text).
    - **Include** the [Kirkham Conference logo](#)
  5. **Central Graphic or Visual (Middle)**
    - One or two clear figure, image, or schematic that visually summarizes your main result or question.
    - Make sure labels are readable from a distance.
  6. **Key Message or Takeaway (Bottom or Side)**
    - One or two **short bullet points** or a brief sentence:
      - What you did
      - Why it matters
      - What you found or expect
4. **Optional: QR Code to Your Poster or Paper**
- This is optional but can encourage follow-up.

**Spoken Part (1 Minute)** - Structure your talk to match your slide:

- **10 sec** – What's the problem/question?
- **20 sec** – What did you do?
- **20 sec** – What did you find or what are you showing?
- **10 sec** – Why does it matter and what can people learn if they visit your poster?

### Tips

- Use **large fonts** and **high-contrast visuals**
- Avoid clutter—**less is more**
- Practice your 1-minute pitch several times
- Match your tone to your audience (general or technical)

**Submit your slide (as a PDF file) by August 8 at:**
